

My family of 5 drivers who live in Connecticut, but near the NY border, do not want tolls placed on I 84. The traffic is now horrendous and it will hurt Connecticut merchants and the Danbury Fair Mall. Are there any plans to put tolls near the Massachusetts border also, or are the citizens of Fairfield county the sacrificial lambs for your increased income?

How about a toll in Harford instead? It makes more sense. It's in the center of the state and all of CT's citizens can partake in this revenue increase.

I await a reply.
